# COLD STORAGE WHEN YOU NEED IT, WHERE YOU NEED IT.

**Units work as Coolers or Freezers.  
Works on a 115v dedicated circuit.**

## We Get it!!

On Demand Mobile Refrigeration, LLC is a mobile refrigerated trailer rental company. We have more than 40 years of experience servicing commercial refrigeration systems so we understand the importance of protecting your refrigerated inventory while controlling cost so your business continues to run smoothly. We've seen schools and restaurants scramble to find a way to save their refrigerated and frozen food when a walk-in goes down and parts aren't readily available. We have watched our customers with seasonal business spikes (Mother's Day, Valentine's Day, etc.) struggle to find extra space for their refrigerated products. We know the struggles that vendors have trying to find on-site refrigerated storage for special events. We are here to help meet these needs so you can focus on your customers.
